Robert Chambers

Director, Upstream Research, IHS Markit

Robert is a Director at IHS Markit. He is based in Singapore where he leads the upstream asset valuations team for the APAC region. He brings over 15 years of oil and gas industry experience with particular focus on upstream asset valuations, pre-FEED facilities development and cost estimation.

Prior to this role, Robert led the upstream costs and technology consulting team, helping key regional and global clients with issues related to upstream and service sector analysis and strategic advisory. Previous to relocating to Singapore, Robert worked for IHS Markit in London, where he worked in various engineering and product management roles within the QUE\$TOR product team. QUE\$TOR is the industry's leading pre-FEED cost estimation software.

He holds a MEng degree in Chemical Engineering from the University of Nottingham, UK.
